

Log Files

The screenshot displays the 'History And Log Files' panel in the Tux Cutter/Smoothie software. The panel contains the following elements:

- Buttons:** 'Tux Plot Log' (highlighted in green), 'Clear Tux Plot Log', 'Tux Cutter Log', and 'Clear Cutter Log'.
- Log Content:** A text area showing 'Tux Plot Standard Log' and a specific entry: 'Tux Plot V4.5 Started 03_04_2018_18-43'.
- Annotations:** Red arrows point from text labels to the buttons and log area.

Annotations and their corresponding text:

- Arrow pointing to 'Tux Plot Log': The Default Log File Shown
- Arrow pointing to 'Clear Tux Plot Log': The Name Of Each File Plotted Is Logged Here
- Arrow pointing to the log text area: In Place Of Tux Plot Log You Can View Tux Cutter/Smoothie Log From Last Job
- Arrow pointing to the bottom of the panel: Most Actions Taken In Tux Plot Are Logged Here

History and log files panel is pretty straight forward. Nothing complex here. A history of plotted files and a log of Tux Plot actions with optional detailed log from your Tux Cutter/Smoothie cnc controller.

Options to clear Tux Plot log and Tux Cutter/Smoothie log.
